| | | | | | |
|---|---|---|---|---|---|
| C#/.Net | React | TypeScript | JavaScript | Node.js | Entity Framework |
| MySQL | Next JS | Tailwind CSS | Three JS | AGILE | DRY Code |
| MS SQL | HTML/CSS | TDD(MSTest/Jest) | HTML | CSS | Pair Programming |

### About Me

As a Junior Developer, I bring nearly a decade of experience as a Skilled Construction Foreman leading teams and managing complex projects. My passion for learning and problem-solving drives me to pursue a career in software development; leveraging my analytical and problem-solving abilities to create innovative and efficient solutions. I am dedicated to creating innovative solutions and collaborating with colleagues to drive success. With a desire to build things that positively impact people's lives, I am excited about the potential of software development to solve real-world problems.
